

Machine Features: The Hurco VM1 is a 6,000 lb. machining center built around a solid cast iron frame and state-of-the-art Ultimax® controls. With travels of 26" x 14" x 18" in a small foot print, the VM1 is designed for almost any shop for primary or secondary operations. The VM1's standard 8,000 RPM spindle, 750 IPM rapids, and 16-station swing arm ATC provide fast throughput, improving overall shop profitability.

The VM1 also features Ultimax control with a 14" color LCD touch screen and full capability of PC based UltiMax software and hardware. NC and conversational programming features allow the operator to expedite job turnaround time, increasing efficiency.

The VM1 also offers a wide range of accessories and options including a 4th axis table, 10k spindle and others.

Machine Specifications:

- Vertical CNC Mill
- XYZ Travel of 26" x 14" x 18"
- Table size of 30" x 14"
