

Machine Features:

The HYUNDAI-KIA SKT 21 is a horizontal CNC turning centre (Lathe) that features high productivity, versatile & integrated turning, high speed operational and high accuracy.

High rigidity ensures long tool life and machining accuracy. Integrated operation provides greater control and operator convenience.

Machine Specifications:

- Chuck size: 8"
- Maximum turning length: 16.1"
- Bar capacity: 2.56"
- XZ travel: 8.3" x 16.9"
